Complete climbing gym h350_138

Outdoor climbing gym complete with climbing net, rope, bars, rings, climbing wall with handholds and fireman's pole.

Playground climbing frame, made of laminated Nordic pine wood pressure-treated in an autoclave with non-toxic salts. Ideal for furnishing play areas dedicated to children to increase their learning functionality and sensory development.

List of components:

- No. 1 scramble net made with a frame of square poles section 9x9 cm and net with nylon ropes and internal core in coated steel cable. The net is assembled and connected to the frame by special colored nylon rope connectors.
- No. 2 horizontal bars in round galvanized steel tube oven-painted at 180°.
- No. 1 pair of steel rings coated in non-slip plastic supported by tight-link welded and hot-dip galvanized chains anchored to a horizontal bar in round galvanized and painted steel tube.
- No. 2 birch plywood panels with phenolic bonding finished with colored films on both sides and colored marble resin handholds constituting a climbing wall.
- No. 1 fireman's pole in round galvanized steel tube oven-painted at 180° fixed to a horizontal bar in round galvanized steel tube oven-painted at 180°.
- No. 1 climbing rope in colored nylon rope with internal core in coated steel cable fixed to a horizontal bar in round galvanized steel tube oven-painted at 180°.
- Assembly using 8.8 galvanized steel bolts and self-locking nuts. Standard colored nylon nut covers. Hot-dip galvanized metal fittings for ground anchoring.

Technical features:

- Material: Nordic pine wood
- Maximum dimensions: 225x170x250 h cm
- Age of use: 5-12 years
- Certified in compliance with European Standards EN 1176 by the German Institute TÜV - SÜD.
- Minimum space: 650x600 cm
- Impact Area: 33.00 sqm
