

## Composite material ping pong table for parks h832\_02

Outdoor ping pong table in composite material with 35 mm top, anchorable anti-vandal structure and compliant with PMR accessibility standards.

This **outdoor ping pong table** has been designed to meet the needs of public and collective contexts that require fixed equipment of **high mechanical resistance**. Thanks to its modern design and robust structure, it represents an ideal solution for school gardens, public parks, and hospitality facilities. The table is engineered to ensure **universal accessibility**, respecting PMR standards for use by people in wheelchairs, and offers a high-performance playing surface thanks to the **anti-glare finish** created directly during the molding phase.

### Technical features

- **Dimensions:** 2.74 x 1.52 x h. 0.76 mt
- **Net weight:** 110 kg
- **Playing surface:** sandwich composite material, thickness 35 mm
- **Finish:** integrated anti-glare for optimal outdoor visibility
- **Base:** composite material with squared corners, white color
- **Fixing system:** designed for permanent anchoring to the ground
- **Net:** anti-vandal model in galvanized and powder-coated steel
- **Mechanical resistance:** compression up to 1600 kg, traction up to 200 kg
- **Accessibility:** compliant with "PMR Accessibility" standards
- **Certifications:** compliant with European standard EN 15-312
- **Customization:** table top available in different color variants
