

## Composite material table tennis table 60 mm h832\_03

Outdoor table tennis table in composite material with 60 mm top, EN 15-312 certified and wheelchair accessible.

The **outdoor table tennis table** is a technical solution designed for permanent installation in high-frequency public and hospitality contexts. The structure stands out for the use of a **composite material sandwich top** with a thickness of **60 mm**, treated with an **anti-glare** finish to optimize visibility during play in different light conditions. Designed with a specific focus on inclusivity, the table is fully **compliant with PRM accessibility standards**, allowing easy use by wheelchair users.

## Technical features

- **Dimensions:** 2.74 x 1.52 x h. 0.76 m
- **Net weight:** 110 kg
- **Top material:** sandwich with 60 mm thickness
- **Top finish:** anti-glare made during the molding phase
- **Safety:** rounded corners and resistance to impacts and atmospheric agents
- **Base material:** 3 mm thick white composite material
- **Central net:** vandal-proof, triangular shape with rounded corners, white color
- **Net treatment:** anti-rust through electro-galvanizing and powder coating
- **Accessibility:** compliant with PRM (Persons with Reduced Mobility) standards
- **Fixing:** mandatory ground anchoring system
- **Mechanical resistance:** compression 1600 kg, tension 200 kg
- **Certification:** compliant with European standard EN 15-312

### Options:

- Playing surface available in different colors upon request.
