

Computer lab desk height 82 cm h908_216

Two-seater table for computer labs in steel Ø40 mm. 200x80 cm top Size 7, stable C-frame and provision for multimedia accessories.

The **H908_216 desk** is a technical two-seater table designed specifically for the setup of **computer labs**, educational laboratories, and professional training centers. The peculiar **"C" structure** made of steel tubing with a diameter of **40 mm** ensures superior stability, fundamental for supporting computer hardware and resisting the stresses of intensive collective use.

The **200 x 80 cm** work surface is sized to comfortably accommodate two complete workstations, leaving enough space for peripheral devices and support material. With a height of **82 cm**, the desk meets the requirements of **size 7**, making it ergonomically suitable for secondary school students and adult users.
