

Concrete bench for public areas h45009

Concrete bench ideal for furnishing public spaces. Available in various finishes. Length: 1700 mm.

The bench represents an important piece of furniture to make common city spaces livable.

The product will allow a pleasant rest for the public in urban areas or commercial spaces.

The **bench** consists of **two pillars**, parallelepipeds, which at half their height feature a **painted aluminum perimeter band**.

In the upper part, the two pillars have an **"L" section** that generates the support base for the seat.

The product is made of reinforced **concrete**, vibrated and sandblasted, **treated with anti-degradation** coating that makes the bench durable over time.

The bench is available in a **choice of finish** between **grey and lava stone**.

Technical features:

- Bench
- Type: without backrest
- Two pillars with painted aluminum perimeter band
- Material: concrete
- Available finishes: grey / lava stone
- Dimensions: L.1700 x D. 380 x H.460 mm
- Weight: 285 Kg

**Indicative image. Upon request, a copper-painted aluminum band is available.*
