

Concrete bench for urban furniture h319_69

Concrete seating for public spaces without backrest. Dimensions: W.1500 x D.500 x H.500 mm.

The concrete bench for urban areas is the ideal product for furnishing public spaces with **simplicity** without sacrificing **quality**. The bench features a **solid structure without backrest** made of concrete with a stone grey finish. The seat is made with high-quality materials that guarantee resistance to atmospheric agents and wear over time. To prevent tipping, it is recommended to fix the bench to the ground using a threaded rod (not included in the supply).

Technical features:

- Material: concrete
- Without backrest
- Dimensions: W.1500 x D.500 x H.500 mm
- Available in multiple finishes
- Equipped with bushings for ground fixing (threaded rod not included)
