Concrete bike rack h35049

Hot-dip galvanized steel bike rack with concrete side supports. Dimensions (cm) 270x60x40 h.

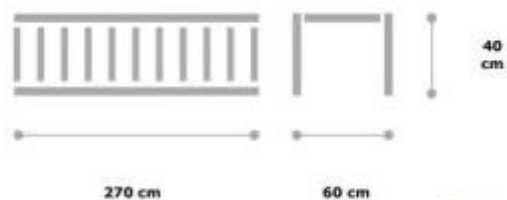

The **bike rack** is the classic parking solution for "**green**" cities that respect the environment, usually placed near schools, train and subway stations. The item consists of a hot-dip galvanized round tube **steel frame**, with space for 5 bicycles, and **two concrete side supports** to ensure stability for the entire structure. Assembly is to be carried out with 8.8 galvanized steel bolts.

Technical features:

- Dimensions (cm): 270x60x40 h
- Central frame dimensions (mm): Ø 40
- Bicycle parking frame size (mm): Ø 25
- Bike spaces: 5
- Assembly: 8.8 galvanized steel hardware
