

Concrete bollard for public spaces h45007

Bollard for urban furniture made of concrete and available in different finishes. Height 600 mm. Base Ø 350 mm.

Bollard ideal for delimiting spaces intended for various uses such as: car parking, pedestrian passage, boundary line between the roadway and the sidewalk, and similar.

The product is therefore perfect for completing urban furniture as well as for circumscribing condominium areas.

The **bollard** is made of **reinforced concrete**, vibrated and sandblasted, treated with anti-degradation which makes it durable and resistant over time.

The product is equipped with an **eyebolt** for handling and anchoring the chain.

For fixing, simply **resting the product on the ground** is sufficient, or alternatively, the **M/16 bushing at the base can be used to ensure its anchoring**.

The possibility of **choosing between finishes in lava stone or grey**, makes the bollard ideal for insertion in any urban context.

Technical features:

- Bollard
- Material: concrete
- Eyebolt
- Fixing: free-standing
- M/16 bushing for eventual ground fixing
- Available finishes: grey or lava stone
- Diameter: 350 mm
- Height: 600 mm
- Weight: 130 Kg
