

Concrete bollard for urban furniture h19198

Truncated pyramidal bollard in concrete and marble conglomerate, 180 kg, 45x45x65h cm. Ideal for delimiting urban areas and vehicle parking.

The **panettone bollard** is an urban furniture element designed for the physical delimitation of areas closed to traffic or vehicle parking. Thanks to its massive structure and essential line design, it integrates harmoniously into various contexts, from historical centers to suburban commercial areas. Its primary function is to ensure the safety of pedestrian paths and the integrity of public spaces through a high-resistance passive barrier.

Technical characteristics

- **Material:** high-density concrete and marble conglomerate
- **Shape:** truncated pyramidal with a square base and rounded top face
- **Weight:** 180 Kg
- **Dimensions:** base 45 x 45 cm, height 65 cm
- **Finishes:** available in different color and material variants
- **Installation:** positioning by direct placement on the ground (self-stable)

Image purely indicative

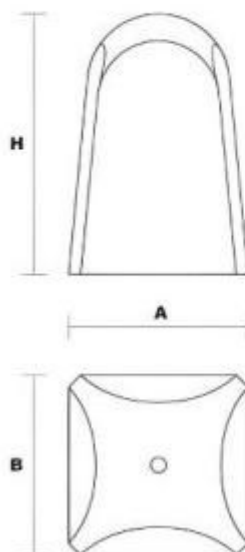

INFORMATION

- **Material** cemento
- **reflective band** no
- **Diameter** 450.000000
- **fixing** da appoggio
- **Typology** Senza anelli
- **Height in millimetres** 650.000000
