

Concrete fountain for urban furniture h319_60

Monumental circular concrete fountain. Dimensions: Ø ext. 4000 x internal h. 1700 mm. Different finishes available.

Our **urban furniture fountain** is a **circular design** element that transforms any outdoor space into an environment of prestige and refinement. Its **central insert**, with a strong visual and architectural impact, becomes the focal point of the area, capturing attention and lending a touch of unparalleled elegance. Made with **high-quality concrete**, specially treated and processed, the fountain stands out for its durability and sophisticated appearance. The **concrete finish** is available in **different variants**, allowing the product to be adapted to various architectural and environmental styles. Each finish is designed to enhance the beauty of the material and ensure long-term durability. The fountain is equipped with a **sturdy internal steel reinforcement**, which increases its stability and resistance, ensuring it remains perfectly anchored to the ground. This intelligent design guarantees a solid and reliable structure, capable of supporting continuous use in public and private environments. To ensure maximum safety and comfort visual, all the **edges of the fountain** are carefully rounded, **sanded and smoothed**. This treatment not only improves the product's aesthetics, but reduces the risk of injury and increases safety in high-traffic areas. Please note that **taps are not included** with the fountain. Installation requires **ground anchoring**. This urban furniture fountain represents a perfect fusion between functionality and design, capable of elevating the appearance and atmosphere of any outdoor space.
