

## Concrete planter for outdoor spaces h319\_52

Circular reinforced concrete planter Ø109xH47 cm for urban furniture, with integrated handling hooks and safety finishes. CAM compliant product.

The **h319\_52** planter is an urban furniture element designed for the enhancement and organization of public areas, pedestrian zones, parks, and squares. Made entirely of **high-strength concrete**, it integrates an internal reinforced steel structure with improved bonding that gives the product superior durability against mechanical stress and prolonged exposure to atmospheric agents. The safety of passers-by is guaranteed by careful processing that includes **rounded and sanded corners**, eliminating any sharp edges. To optimize logistics and installation phases, the structure is equipped with special internal hooks that facilitate precise lifting and positioning.

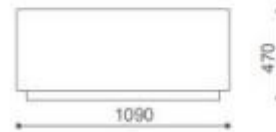

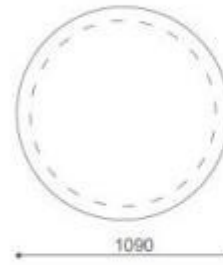

## Technical features

- Dimensions: Ø109 x H47 cm
- Weight: 430 kg
- Material: Reinforced concrete
- Reinforcement: High-bond steel
- Finish: Natural concrete with rounded and sanded corners
- Handling system: Integrated internal hooks
- Compliance: Product compliant with Minimum Environmental Criteria (CAM)
