

Concrete street furniture bench h31915

Single-block high-resistance concrete bench without backrest, 200x50x50 cm. Polished accident-prevention design and CAM compliance for public spaces.

This single-block **street furniture bench** is designed for functional integration in high-traffic public contexts such as squares, municipal gardens, and condominium courtyards. Made of **high-resistance concrete**, the structure stands out for the absence of a backrest, favoring multi-directional use and a minimal aesthetic that adapts to various architectural styles. The surface is entirely polished to eliminate sharp corners or edges, ensuring maximum safety for users.
