

Concrete urban furniture bench h677_16

Bench for public spaces with concrete side supports and wooden seat and backrest. Dimensions: W.171 x D.87 x H.810 cm.

The bench for public spaces is ideal for furnishing parks, avenues and urban areas intended for festivals and fairs. **The product features an extremely resistant structure, made of fiber-reinforced concrete side supports and a seat and backrest in painted wood** designed to be resistant to atmospheric agents and wear over time. Both the concrete and wooden parts are available in different colors and combinations. The product is designed for ground anchoring.

Technical features:

- Side support material: concrete
- Backrest and seat material: wood
- Concrete available in different finishes
- Wood available in different colors
- Dimensions: W.171 x D.87 x H.810 cm
- Weight: 120 kg

**The unloading service for the goods is not included in the delivery. A quotation can be provided upon customer request and after a formal estimate.*
