

## Concrete waste container h19169

Concrete bin for waste collection also available with an ashtray. Made of concrete and marble grit. Dim: 50x50 x 93H cm. Capacity 90 lt

Concrete waste container equipped with a lid, ideal for outdoors both for its resistance and for the weight due to the material used.

It's equipped with a rectangular and slightly rounded base. It can be used from both sides thanks to the two curved parts at the waste entry openings. The practical and robust lid hinged on the back also allows access to the internal bag-holder ring.

Made of cement conglomerate and marble grit, the waste bin is supplied fully assembled and ready to be positioned and used.

### Technical data:

- total height: 93 cm
- height without lid: 70 cm
- width: 50 cm
- depth: 50 cm
- ashtray height: 35 cm
