Yes, as long as they have a diameter compatible with the 6.5 cm tube.
3. **Is the material suitable for food contact?**
Yes, it is made of materials compliant for the food sector.
4. **Can it be cleaned easily?**
Yes, the design allows for quick and easy cleaning.
5. **Is it suitable for intensive use?**
Yes, the robust structure makes it ideal for daily use in professional environments.

Mini buying guide:

Choosing a **cone holder for an ice cream parlor** requires attention to some important factors.

First of all, it is essential to evaluate the **capacity**, to ensure that the chosen model can hold the number of cones necessary for your service.

The **material** also plays a fundamental role: it must be resistant, hygienic, and easy to clean.

The **dimensions** of the display must fit the workbench without excessively cluttering the operating space. Finally, a practical and ergonomic design improves the usability of the product, making the service faster and more efficient.
