

## Conference room armchair on wheels h449\_114

Mobile tub armchair in eco-leather and steel, with wheels Ø 50 mm. Compact design 58x55x74 cm, ideal for meeting rooms and congress contexts.

This **tub armchair** is designed to combine a compact design with high operational functionality in professional contexts. The load-bearing structure integrates a **tubular steel** and **multilayer beech** core, ensuring superior structural stability even under intensive use conditions. The **cold-molded foam** padding ensures maintenance of bearing capacity over time, offering constant ergonomic support during prolonged sessions. Mobility is guaranteed by a base equipped with **50 mm wheels**, which allow fluid and silent movement on indoor surfaces.
