

Conference room armchair with wheels h1038_31

Folding tub armchair h1038_31 with writing tablet and wheels. Steel structure, cold-molded foam padding and high-resistance upholstery (100,000 Martindale cycles).

The **conference room armchair with wheels h1038_31** represents the functional evolution of professional seating for training and congress contexts. Featuring a **folding steel structure**, it integrates a practical **thermoplastic writing tablet**, making it the ideal work tool for **conference rooms, auditoriums and classrooms**. The padding made of **cold-molded foam** offers superior comfort and constant ergonomic support, while the nylon swivel wheels guarantee fluid mobility. This model solves the operational problem of managing multi-purpose spaces, allowing for the rapid configuration of complete workstations and freeing up the area thanks to the space-saving closing system.
