

Conference room bench h770_28

4-seater conference bench with white polyamide shell and painted steel structure. Dimensions: W 206.5 x D 61 x H 79 cm.

The **4-seater conference room bench h770_28** is a practical and elegant solution for waiting rooms, conferences, or common spaces. The glass-reinforced **PA6 polyamide shells** ensure robustness and durability, also offering a distinctive touch thanks to the **filigree finish** which gives a three-dimensional effect to the touch. The white color of the shells adds brightness and modernity, integrating perfectly into professional environments.

The bench is equipped with a sturdy **steel beam**, composed of two tubes with a diameter of 40 mm and a thickness of 3 mm, powder-coated with a **silver grey** finish. The shells are fixed directly to the beam via M6 screws, ensuring a stable and secure installation. The beam ends are completed with **technopolymer caps** for a finished look and to protect any edges.

The **bases** of the bench are made of 60 mm wide and 12 mm thick **steel plate**, with a curved and welded design that guarantees stability. They are painted with silver grey epoxy powders and equipped with **adjustable feet** in technopolymer, ideal for adapting to uneven surfaces and protecting floors.

Make your conference or waiting room more comfortable and modern with this **4-seater bench h770_28**! Request a personalized quote now.
