

Conferenceroom chair h770_24

Conference chair with gray polyamide shell and chrome steel structure. Dimensions: W 55 x D 59 x H 79 cm.

This **conference room chair h770_24** offers a perfect balance between modern aesthetics and resistance. The shell, made of **glass-filled PA6 polyamide**, features a particular “filigree” surface finish, which gives the chair a three-dimensional effect and is pleasant to the touch. The gray shade of the shell makes it versatile and easily combinable with any work or educational environment.

The structure of the chair is composed of **four chrome steel legs** with a diameter of 16 mm, guaranteeing stability and durability over time. The legs are equipped with **technopolymer feet**, which prevent damage to the floor and offer a secure support. The shell is fixed to the structure by 4 screws, screwed into threaded metal bushings, ensuring a solid and lasting installation.

The upper “**U**” **section** plates of the legs are predisposed for any accessories such as a conference tablet or linear attachments to connect multiple chairs. This chair is ideal for **conference rooms, training classrooms** or **public spaces**, where comfort, resistance and modern design are essential.

Buy the **conference chair with polyamide shell h770_24** now for a modern and functional furniture. Perfect for classrooms and meeting rooms, it guarantees comfort and practicality. Contact us for a quote on large quantity orders!

Technical features:
