

## Conferenceroom chair h770\_25

Chair with white polyamide shell, steel structure Ø 16 mm. Dimensions: 59 x 55 x H 79 cm.

The **h770\_25 conference room chair** represents a versatile and modern solution, designed to guarantee comfort and functionality in work and meeting contexts. The shell, made of **PA6 polyamide** reinforced with fiberglass, offers high resistance and durability over time, while maintaining a lightness that facilitates movement. The **filigree surface finish** not only gives a three-dimensional and pleasant-to-the-touch aesthetic effect, but also improves grip, ensuring a comfortable and stable seat. The white color of the shell adapts to any environment, giving a touch of modernity and visual cleanliness.

The **chair structure** consists of 4 **chrome-plated steel** legs with a diameter of 16 mm, which give it great stability. The legs are equipped with **technopolymer feet** to avoid scratching or damaging floors. The assembly system is simple and fast: the structure is assembled to the shell via 4 screws that connect to the threaded metal bushings inserted directly into the shell itself, ensuring robustness and a secure anchoring.

Suitable for conference rooms, corporate meetings or classrooms. All materials used are completely **recyclable**, making this product an environmentally responsible choice.

Don't miss the opportunity to purchase a **modern** and versatile chair for your conference room. Request a quote now for large quantities or specific customizations!

### Technical features:

- **Shell material:** PA6 polyamide reinforced with fiberglass
- **Finish:** Three-dimensional filigree for aesthetic and functional effect
- **Shell color:** White
- **Structure:** 4 chrome-plated steel legs Ø 16 mm
- **Feet:** In technopolymer for floor protection
- **Overall dimensions:** 59 x 55 x H 79 cm
- **Seat height:** 44 cm
- **Assembly:** Via 4 screws and threaded metal bushings
- **Recyclable:** Yes, completely

### User benefits:

- **Optimal comfort:** The ergonomic shell promotes comfortable seating for long periods
- **Strength and durability:** High-quality materials ensure long life even with frequent use
- **Sustainability:** Made with completely recyclable materials
- **Floor protection:** Technopolymer feet protect more delicate surfaces

### FAQ:

#### 1. Is the chair suitable for outdoor use?

No, this chair is designed for indoor environments such as conference or meeting rooms.

2. **Is it possible to purchase the chair already assembled?**

No, the chair is supplied disassembled to optimize transport, but assembly is simple and takes only a few minutes.

3. **Does the shell scratch easily?**

No, thanks to the filigree finish, the surface is scratch-resistant and easy to clean.

**Mini buying guide:**

When purchasing a conference room chair, it is essential to evaluate several aspects. The shell should be ergonomic and resistant to ensure prolonged use without compromising comfort. In contexts such as conference rooms, classrooms or shared workspaces, the **chair with a chrome structure and polyamide shell** represents an ideal choice for its robustness. Furthermore, opting for recyclable products contributes to reducing environmental impact, making this chair a sustainable solution.

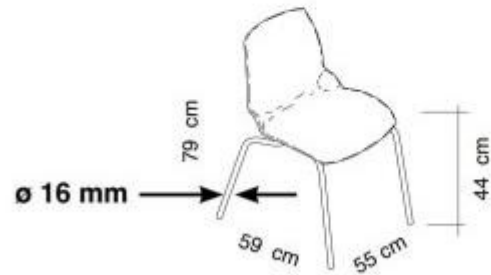

Be sure to consider the **available space** and the **needs of your team**: models like this **h770\_25** offer great versatility thanks to the possibility of customizing the seat with modular accessories. Furthermore, the contemporary design and high-quality materials ensure not only functionality, but also an aesthetic suitable for professional contexts.
