

Conference room chair without armrests h1038_16

Conference chair without armrests h1038_16. Polypropylene shell and painted steel frame. Stackable and functional.

The **h1038_16 conference room chair** is a fixed seat designed to offer maximum functionality and resistance in collective and professional contexts. Featuring an **injection-molded polypropylene** shell and a robust semi-oval steel tube frame, this chair solves the problem of quick and durable setup for large spaces. Ideal for meeting rooms, educational areas, and congress centers, the armless design allows for optimization of the floor space footprint, facilitating the alignment of seats and the management of people flows.
