

Connectable rhombus desk classroom 4.0 h 64 cm h908_128

Connectable rhombus school desk in steel and recycled wood. Height 64 cm (size 4), ideal for modular classrooms and School 4.0 projects.

The **h908_128 connectable rhombus desk** represents a cutting-edge solution for setting up **flexible school classrooms** and advanced teaching laboratories. Specifically designed to meet the guidelines of **School 4.0 projects**, its rhombus geometry allows overcoming the rigidity of frontal lessons, favoring the creation of work islands and dynamic configurations for **group work**.

The structure combines **ergonomics and sustainability**: the 64 cm height (size 4) is calibrated to support the correct posture of primary school students, while the use of a **100% recycled wood top** ensures full compliance with the environment and current regulatory protocols.

Technical features

- **Total dimensions:** L. 80 x W. 134 x D. 79.5 x h. 64 cm
- **Size:** 4 (optimized for students' height)
- **Geometry:** Connectable rhombus model for modular configurations
- **Supporting structure:** Legs in sturdy steel tube with diameter Ø 40 mm
- **Worktop:** Ecological panel made of 100% recycled wood
- **Standard finish:** High-visibility orange color for cognitive stimulation
- **Sustainability:** Product compliant with CAM (Minimum Environmental Criteria) requirements
- **Intended use:** Primary schools, 4.0 classrooms, multifunctional spaces

Optionals and customizations:

- Alternative top colors available upon request after consulting the color chart.
- Possibility of multiple configurations (e.g. 3-piece island) to optimize available space.

Image purely indicative

INFORMATION

- **Size** Grandezza 4
