

Connectable wedge desk h 82 cm h908_122

Connectable wedge desk h908_122 for School 4.0. Steel structure and recycled wood top (87.5x70 cm). Ideal for modular teaching.

The **connectable wedge desk h908_122** is a professional furniture solution designed for the creation of **innovative classrooms** and dynamic educational spaces. Its specific geometry allows overcoming the limits of frontal lessons, enabling the creation of rapid **modular configurations**, essential for **collaborative teaching**, workshops, and group work in academic and school environments.

The construction integrates a **robust structure** in 28 mm diameter steel tube, designed to ensure maximum stability during intensive use. Particular attention is paid to sustainability: the top is made of a **100% recycled wood ecological panel**, guaranteeing a low environmental impact in line with modern eco-design requirements for public spaces.

Technical features

- **Dimensions:** W. 87.5 x D. 70 x h. 82 cm
- **Size:** 7 (optimized for adult students)
- **Model:** Connectable wedge-shaped for multiple configurations
- **Structure:** Supporting legs in Ø 28 mm steel tube
- **Worktop:** Ecological panel produced with 100% recycled wood
- **Top color:** Light blue (standard finish)
- **Regulatory compliance:** Respect of Minimum Environmental Criteria (CAM)
- **Target use:** High schools, universities, modular classrooms, and School 4.0 laboratories
