

Dog waste bin for urban furniture h140197

Urban container in galvanized steel, 36 cm cylindrical drum, total height 102 cm, lid with uniquely keyed lock, spring flap, ground fixing with anchor bolts.

Specialized container for urban use, designed for the collection of dog waste in public spaces. The product is entirely made of **galvanized steel** with thermosetting powder coating, ensuring long-term durability and protection against atmospheric agents.

The structure consists of a **cylindrical drum** with a shaped circular base and a support post made of round tubing. The upper part is equipped with a **lid that can be opened with a uniquely keyed lock**, featuring a **spring flap** for quick access. Inside, there is a **PVC container** designed to hold collection bags. Ground anchoring is achieved using anchor bolts and expansion plugs on the circular base plate.

Technical characteristics

- **Material:** galvanized steel with thermosetting epoxy powder coating, 60-micron film thickness
- **Finish:** zinc yellow RAL 1018 (drum and post), mint green RAL 6029 (flap)
- **Drum diameter (upper part):** 36 cm
- **Drum height:** 50 cm
- **Total height:** 102 cm
- **Base diameter:** 30 cm
- **Weight:** 16 kg
- **Closing system:** unique keyed lock for the lid; upper flap with spring opening/closing
- **Fixing:** perforated plate for anchoring with anchor bolts and expansion plugs; external screws protected by pressure-fit PVC caps
- **Internal component:** removable PVC container for collection bags
- **Production:** Italy
