

Cover for above ground pools in polypropylene 4,20 x 2,65 mt h17420

Universal coverage for above-ground pool of rectangular shape ideal for all year in polypropylene. Italian product.

Universal coverage for above-ground pools of rectangular shape with maximum dimensions of 4.20 x 2.65 m.

The use of the cover is recommended both in the summer months than in winter months. during the summer the cover keeps the water clean while avoiding falling insects, leaves and dust, also keeps the heat that water has accumulated during the day. If used regularly reduces costs due to the use of cleaning agents and decreases the time required for filtering.

The cover is made of polypropylene, a plastic material that is very light, waterproof, resistant to heat, ultraviolet rays and wear, so it can be used even in winter.
