

Crate hand truck 200 kg with maxi-wheels h55_99

Steel crate hand truck (490x600x1250 mm) with curved back for parcels and drums. Load capacity 200 kg and Ø 300 mm puncture-proof wheels. Supplied assembled.

The **professional crate hand truck** with a curved back is the ideal technical solution for handling heterogeneous loads in logistical and industrial contexts. Thanks to the specific **shaping of the backrest**, the device allows for the safe transport of not only parcels and crates, but also drums, sacks, or soft materials that require stable and encompassing support. The structure is entirely made of **electro-welded steel tubes and plates**, finished with epoxy powder coating to ensure high mechanical resistance and protection against corrosion.

Technical features

- **Total dimensions:** W. 490 x D. 600 x h. 1250 mm
- **Operating weight:** approx. 11.5 kg
- **Loading plate dimensions:** 320 x 250 mm
- **Load capacity:** 200 kg

- **Material:** Welded steel with epoxy powder finish
- **Sliding system:** 2 puncture-proof wheels Ø 300 mm with painted sheet metal core
- **Tire:** Black polyurethane foam with tread pattern, resistant to shocks and vibrations
- **Ergonomics:** Non-toxic rubber grips with safety handle
- **Compliance:** Product complies with CE regulations
- **Delivery state:** Supplied fully assembled and ready for use
