

Crate hand truck with toe plate h503_31

Professional galvanized and painted steel trolley, Ø 26.9 mm frame, 300 kg capacity and pneumatic wheels for heavy load handling.

This **goods handling trolley** is designed to meet the needs of efficiency and safety within depots, warehouses, and commercial premises. The structure is made with a **robust galvanized steel round tube frame** with a diameter of 26.9 mm, which gives the trolley superior structural stability and a long operating life, even in contexts of intensive use.

Ergonomics is guaranteed by two plastic handles equipped with a **safety bar** for hand protection during maneuvers in tight spaces. The load plate is sized to accommodate packages of various volumes, while the rolling system based on **pneumatic wheels with ball bearings** ensures smooth progression and a reduction in the operator's physical effort, even when fully loaded.

Technical features

- **Material:** galvanized steel
- **Finish:** painted in black and red colors
- **Maximum capacity:** approx. 300 kg
- **Structure:** round tube frame with 26.9 mm diameter
- **Grips:** 2 ergonomic plastic handles with safety handguards
- **Load plate dimensions:** approx. 190 x 360 mm
- **Handling system:** pneumatic wheels with ball bearings
- **External overall dimensions:** approx. 57 x 123 x 40 cm
