

Crate trolley 200 kg rubber wheels h55_102

Electrowelded steel crate trolley 440x515x1240 mm, capacity 200 kg. Straight back structure and rubber wheels for industrial and HoReCa use.

The **straight back crate trolley** is a professional solution designed for intensive load handling in the catering and industrial sectors. The structure is made of high-quality **electrowelded steel**, treated with **epoxy powder coating** to ensure resistance to wear and external agents. Ergonomics are at the center of the design thanks to the **non-toxic rubber handgrips** with anatomical grip, which facilitate maneuverability even when fully loaded.

Technical features

- **Total dimensions:** W. 440 x D. 515 x h. 1240 mm
- **Weight:** approx. 11 kg
- **Loading plate dimensions:** 320 x 250 mm
- **Maximum capacity:** 200 kg
- **Material:** welded steel with epoxy powder finish
- **Sliding system:** 2 rubber wheels Ø 200 mm with black rubber ring (hardness 82±4 Sh.A.)
- **Wheel components:** zinc-chromed and riveted pressed steel sheet hub
- **Safety and comfort:** non-toxic rubber handgrips with ergonomic grip
- **Delivery status:** supplied fully assembled
- **Compliance:** manufactured to CE standards
