Crate trolley h2249

Painted steel crate trolley with 26 cm pneumatic wheels and 200 kg capacity. Ideal for handling heavy loads in the warehouse.

This **professional crate trolley** is designed to optimize manual handling operations for heavy and bulky loads. Made with a robust **steel tube structure** and a sheet metal platform, it represents a reliable solution for transporting packages, crates, and bulk materials within intensive operating contexts.

The **red painted finish** ensures high visibility of the device in work environments, improving safety, while the material configuration ensures resistance to prolonged mechanical stress.

Technical features

- **Structure:** tubular frame and loading platform in high-strength sheet steel
- **Finish:** red protective coating
- **Wheels:** pneumatic with a diameter of 260 mm, suitable for various types of surfaces
- **Maximum capacity:** 200 kg
- **Intended use:** transport of crates, packages, and medium load units
