

Crate trolley h6203

Professional steel trolley with 6-wheel system, 200 kg capacity and 47x20 cm platform, ideal for moving heavy loads on stairs. The **professional hand truck** is a tool designed for the intensive handling of boxes, crates, drums and heavy packages in logistical and industrial environments. The structure is made of high-quality **tubular sheet steel**, processed with precision techniques that ensure an excellent ratio between dead weight and mechanical strength, guaranteeing stability even under constant stress. The design is optimized to overcome height differences and flights of stairs, reducing the physical impact on the operator during transport.

Technical features

- **Material:** Steel with tubular sheet structure
- **Movement system:** 6-wheel star rotation support
- **Wheel type:** High-resistance rubber
- **Wheel diameter:** 150 mm
- **Total dimensions:** W 64 cm x H 120 cm
- **Platform dimensions (toe plate):** 47 x 20 cm
- **Maximum capacity:** 200 kg
- **Versatility:** Can be used on both flat surfaces and stairs
