

Crowd control barrier for sporting events h774_04

Expandable aluminum security barrier. Dimensions: L.670 x h.110 cm. Quick and easy to assemble and disassemble.

Expandable barrier ideal for safely managing crowds at sporting events, concerts, or public demonstrations. Made of **anodized aluminum** with stainless steel screws and equipped with **rubber wheels** at the bases with a locking system. Designed to ensure **speed and ease in assembly and disassembly operations** and characterized by a compact footprint that allows it to be transported even in a small van. **Stable, robust** and highly **resistant to pressure and stress**.

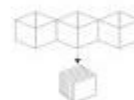

Technical features:

- Dimensions: L.670 x h.110 cm
- Weight: 53 kg
- Material: 6060-T6 anodized aluminum and stainless steel hardware
- Swivel blue rubber wheels, Ø100 mm; load capacity 180 kg
- Wheels with locking system, unlocking by simple pressure on the brakes
- Quick and easy assembly
- Easy storage and transport
- Foldable in seconds
- Minimal footprint
