

Curved bench for public spaces h424_73

Elegant curved outdoor bench without backrest. Material: wood. Dimensions: W.1950 x D.660 x H445 mm.

The curved bench for urban furniture is ideal for modular installations to create sinuous and soft shapes, making urban spaces elegant and scenic in a simple way. **The product consists of a wooden backless bench and a support structure in galvanized steel with anti-corrosion treatment to resist weathering and wear.**

The bench is designed for ground anchoring and, thanks to its elegant and refined style, the bench easily adapts to any type of environment and context.

Technical features:

- Material: wood
- Galvanized steel structure
- Anti-corrosive treatment
