Curved foam bench for children h999_19

Psychomotor curved bench for children 18-36 months in high-density foam and bite-resistant PVC. Length 200 cm, ideal for balance and coordination.

The **psychomotor curved bench** is a professional educational solution designed to support motor development and spatial exploration in early childhood. Its ergonomic arched shape is designed to set up dynamic paths that challenge balance in total safety, making it a fundamental tool for **nurseries, preschools and multi-purpose centers**. The structure effectively dampens impacts and ensures constant support during climbing, descending and walking activities.

Technical features

- **Intended use:** Children aged between 18 months and 3 years.
- **Dimensions:** Length 200 cm, depth 25 cm, height 25 cm.
- **Inner core:** High-density polyurethane foam (25 kg/m³) for an optimal balance between softness and load-bearing capacity.
- **Upholstery:** Technical fabric in antibacterial, non-slip and bite-resistant PVC.
- **Maintenance:** Waterproof surface easily sanitized with neutral detergents.
- **Compliance:** ISO 9001:2015, ISO 14001:2015, REACH Regulation and EN71-3 standards.
