

Curved parking wheel stop h729_51

Curved wheel stop h729_51 in galvanized and painted steel (Ø60 mm). Ergonomic design, available in Anthracite Grey RAL 7016 or High Visibility Yellow. Protection for infrastructure and PRM ramp safety.

The **curved parking wheel stop h729_51** is a multifunctional safety device designed for the delimitation of spaces and the protection of sensitive areas. Made of **hot-dip galvanized and painted steel** with a **60 mm diameter** tube, this model stands out for its curved design at the ends that connect to the ground. This ergonomic shape not only improves aesthetic impact, but also eliminates sharp edges, increasing safety in pedestrian areas. In addition to absorbing vehicle impacts to protect walls and systems, it serves as a **PRM (People with Reduced Mobility) safety curb** on ramps and walkways, preventing wheelchairs from tipping and ensuring protected transit.

Technical features

- **Material:** Hot-dip galvanized steel with epoxy powder finish
- **Colors:** Anthracite Grey RAL 7016 or High visibility Yellow
- **Tube diameter:** Ø 60 mm
- **Design:** Curved model with ground connections
- **Dimensions:** Length 200 cm x Height 11.5 cm
- **Weight:** 6.50 kg
- **Fixing:** Drilled base plates for stable anchoring
- **Resistance:** Doubled anti-corrosion treatment (galvanization + paint)
