

Curved urban furniture bench H463_10

Curved bench in metal and FSC wood, 4 seats. Dimensions: L 205.6 x D 75.4 x H 43.8 cm.

The **H463_10 curved urban furniture bench** is an elegant, ergonomic and sustainable solution designed for public spaces, parks, green areas, historic centers, cycle paths, school spaces and company areas. With a serpentine structure and a comfortable **4-seater** seat, it represents a perfect combination of **functionality, aesthetics and durability**.

The composition in **anti-corrosion treated steel** and **anti-UV powder coating** (RAL 7016 matte anthracite color) guarantees **resistance to atmospheric agents**, even in environments constantly exposed to rain, sun or humidity. The **robinia wood slats (robinier essence)** Class 4, **FSC** certified, come from sustainably managed forests and offer a natural, resistant and **chemical-free** seat, ideal for public environments. Their classification makes them particularly suitable for outdoor use **without the need for regular maintenance**.

The curved design with **rounded corners** not only contributes to the aesthetic impact of the urban context, but also ensures **safety and comfort** for users. The bench is **to be anchored to the ground with 6 anchoring points** (kit not included), ensuring maximum stability.

Perfect for **intensive use**, thanks to the robustness of the materials and construction quality, it is an optimal choice for Municipalities, landscape architects, public bodies and companies looking for **durable, ecological and design urban furniture**.

FAQ:

1. **Is the bench suitable for outdoor use?**
Yes, it is designed for urban furniture and perfectly resists bad weather, humidity and UV rays.
2. **Does the wood require maintenance?**
No, the robinia slats are Class 4, suitable for outdoor use and do not require periodic treatments.
3. **How many people can it accommodate?**
The bench is designed for 4 people, thanks to its generous dimensions and ergonomic structure.

4. **Is the ground fixing included?**

No, the anchor bolt kit is not included. It must be purchased separately.

5. **What is the origin of the wood used?**

The wood comes from sustainably managed French forests, with FSC certification.

Mini buyer's guide:

When choosing a bench for public spaces, it is essential to consider **weather resistance**, **material quality** and **user comfort**. Benches with **painted steel structure and FSC wood** like the H463_10 guarantee durability, environmental respect and integration with the environment. The curved design is ideal for creating **convivial and modern relaxation areas**, while the presence of **rounded corners** increases safety, especially in areas frequented by children. Ground fixing is important to ensure stability and prevent vandalism. Opt for Class 4 materials if you want **zero maintenance** and maximum durability over time.
