Defibrillator cabinet h86_89

Defibrillator cabinet in recyclable metal, mint green, front opening, 100 dB acoustic alarm. Dimensions 380x160x420 mm.

The defibrillator cabinet is a containment and protection solution designed to ensure quick and safe access to defibrillation devices in indoor environments. Made of **recyclable metal material**, it represents a sustainable choice without compromising on robustness. The **mint green** color allows for quick visual identification of the life-saving tool, while the **front opening** ensures immediate extraction of the defibrillator in case of emergency. The **integrated 100 dB acoustic alarm** promptly signals any access to the device.

Technical features

- **Material:** Recyclable metal
- **Opening:** Front
- **Acoustic alarm:** 100 dB
- **Color:** Mint green
- **Dimensions:** W. 380 × D. 160 × H. 420 mm
