

Boundary barrier with advertising panel h287_133

Pedestrian barrier in galvanized steel equipped with advertising panel. Dimensions: W100 x H120 cm

Pedestrian barrier with **dual function**, for delimitation and communication thanks to the presence of the **advertising panel**. Made of **galvanized steel round tube** with 60 mm diam. in the shape of an "U" inverted. In the lower part of the structure there is a **crossbar also in tubular steel** which acts as a base for the **posting panel in galvanized sheet steel with dimensions W89 x H60 cm**. The **galvanized steel parts are** subjected to a **pre-treatment process for degreasing impurities** through solutions and vapors, subsequently dried and painted covering the pieces of paint with **non-toxic powders** and finally subjected to **oven polymerization** to allow the powder to solidify. Fixing involves **ground embedding of 20 cm**.

Technical features:

- Dimensions: W100 x H120 cm
- With advertising panel
- Posting panel dimensions: W89 x H60 cm
- Material: galvanized steel
- Fixing: to be buried by 20 cm

INFORMATION

- Length in millimetres 1000.000000
- Height in millimetres 1200.000000
- fixing da interrare
