

Design bench for urban furniture h330_65

Outdoor bench with a modern and linear design, composed of a laser-shaped steel structure and Okumè wood seat. Dimensions: L. 1840 x D. 600 x h. 450 mm

The **h330_65 bench** is an urban furniture solution with a contemporary style, designed to combine aesthetics and functionality in public spaces and pedestrian areas. Made with **press-folded and laser-shaped sheet metal**, the steel **base structure** guarantees solidity, durability over time, and resistance to atmospheric agents. The **seat** is made of **Okumè wood**, a type of wood known for its robustness and adaptability to the outdoors.

The bench features **simple and clean lines**, adapting perfectly to modern urban contexts, green spaces, cycle-pedestrian paths, promenades, or school courtyards. **Floor fixing** is possible thanks to the **pre-drilled 12 mm holes**, integrated into the base to ensure secure anchoring.

It is available in **various RAL colors**, so as to harmonize with the visual identity of the environment in which it is placed.

Give a touch of urban style to your public spaces with the h330_65 bench: functionality, modern aesthetics, and durable materials in a single furnishing solution.
