

Design bench in steel and wood h330_45

Outdoor bench with laser-cut steel structure and okumè wood seat, ideal for urban furniture. Dimensions: W. 2000 x D. 450 x h. 450 mm.

The **h330_45 bench** combines **architectural design and resistant materials**, offering a solid, functional urban furniture solution with a strong visual impact.

The structure is made entirely of **galvanized and painted steel**, with a **laser-cut base plate** and **holes for floor fixing**, ensuring stability even in high-traffic areas. The central support consists of **laser-cut side plates and webs**, which provide robustness and a modern, geometric aesthetic.

The **seat**, also made with laser processing, is covered with an **okumè marine plywood panel**, a resistant wood suitable for outdoor use due to its moisture-resistant properties.

All **steel elements** are **available in various RAL colors**, for harmonious integration into urban architectural projects of all types.

A bench that combines **contemporary design, functionality, and robustness**, perfect for well-maintained and modern public spaces.

Distinguish your urban spaces with the **h330_45 bench**, where **modern lines** and **quality materials** meet.

Technical characteristics:

- **Dimensions:** W. 2000 x D. 450 x h. 450 mm
- **Structure:** galvanized and painted steel, laser-cut
- **Seat:** okumè marine plywood panel
- **Structural elements:** laser-cut side plates and webs
- **Base plate:** with holes for floor fixing
- **Steel components available in various RAL colors**

User benefits:

- **Architectural design:** perfect for modern and refined urban environments.
- **Durability over time:** materials treated for outdoor use and high durability.
- **Comfortable seat:** okumè wood covering for natural comfort.
- **Solid structure:** construction with laser-cut plates and side webs.
- **Versatile integration:** easily adapts to public and commercial contexts.

FAQ:

1. **Can the bench be used in uncovered areas?**
Yes, it is designed to withstand atmospheric agents thanks to materials treated for outdoor use.
2. **Is okumè wood suitable for outdoors?**
Yes, okumè marine plywood is highly resistant to humidity and ideal for urban furniture.
3. **Is it suitable for commercial or private environments?**
Certainly, its modern aesthetics make it perfect also for corporate spaces, hotels, and resorts.
4. **What kind of maintenance does it require?**
Regular cleaning with neutral products is sufficient to keep it in excellent condition.
5. **Is it also suitable for temporary installations?**
Yes, but to ensure stability, fixing via the holes in the base is always recommended.

Mini purchase guide:

The **h333_45 bench** is designed for those looking for an **elegant and durable urban furniture solution**, capable of combining **design and functionality**. The mix of **painted steel structure** and **okumè wood seat** offers a balance between technical resistance and warm, natural aesthetics.

Ideal for **public spaces, urban courtyards, squares, residential or private areas**, it represents a conscious, solid, and versatile style choice.
