

Design bike rack for urban furniture h915_14

Compact bike rack for public spaces. In painted steel. Dimensions: 485 x h. 795 mm.

1-place bike rack, with a **modern and space-saving design**. The bicycle is parked by placing the front wheel on the support hook and pulling the internal cable, which passes through the front wheel until it is positioned at the level of the frame and the rear wheel, where the lock is applied to secure the bicycle. With a single lock, it is possible to secure the bicycle. To unlock it, you must remove the lock and the cable automatically retracts inside the support (**lock not provided**). Made of **painted steel with epoxy primer and polyester paint for outdoor use. To be anchored to the ground.**

Technical characteristics:

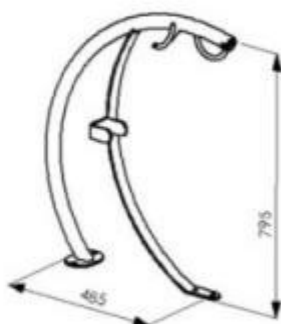

- Dimensions: 485 x h. 795 mm
- 1 place
- Color as shown in photos
- Material: painted steel with epoxy primer and polyester paint for outdoor use
- Ground anchoring
- Maintenance-free
