

Design bike rack h677_06

Bike racks for public spaces ideal for up to 3/4 bicycles. Dimensions: W.1060 x D.790 x H.250 mm.

The concrete bike rack is a product with a sinuous shape, ideal for large spaces such as promenades and squares and also useful for delimiting pedestrian areas by preventing vehicle access. **The product features a special structure made of high-quality fiber-reinforced concrete with a surface treated to be UV resistant. The bike rack for urban furniture is suitable for 3/4 bicycles and can be used from both sides.**

It is possible to choose the product in 4 different finishes: brown, grey, mottled and white concrete.
