

Design hotel luggage rack h514_06

Wooden luggage rack for hotels and b&b with three nylon straps. Open dimensions: W. 575 x D. 390 x h. 465 mm. Available in various finishes.

The **design luggage rack h514_06** is a versatile furnishing solution, designed to integrate elegantly into modern hospitality contexts such as hotels, vacation homes, and bed & breakfasts. Made of fine **beech wood**, this luggage rack combines the warm tones of the natural material with the practicality of **three removable nylon straps**. The structure has been specifically designed to solve the operational problem of space management: thanks to the folding system, the object can be stored in wardrobes or narrow niches occupying only 55 mm of depth. The target market also extends to specialized sectors such as cruise ships and rehabilitation centers, where ease of movement and the hygiene of removable textile components represent a fundamental added value.
