

Design planter for urban furniture h140_546

Galvanized steel planter RAL 7001 with decorative cut-outs and internal container. Dimensions: W 70 x D 70 x H 72 cm.

The **H140_546 design planter for urban furniture** is an elegant and functional element, ideal for setting up public spaces such as squares, parks, pedestrian walkways and commercial areas. Thanks to its **square and compact** shape and the particular design with **decorative cut-outs on all four sides**, it creates a pleasant visual perspective effect that enhances the surrounding environment.

The structure is composed of **3 mm thick galvanized steel sheet box section**, resistant and durable, with anti-corrosion protective treatment. The internal container, also in **galvanized sheet metal**, guarantees maximum solidity and simplicity in plant management. The planter is equipped with **4 support feet** that prevent direct contact with the ground, improving the stability and durability of the product.

The color of the steel parts is **RAL 7001 (silver gray)**, obtained through a cycle of **certified anti-corrosion treatments and finishes**: washing, sandblasting, epoxy primer, powder coating and **double polymerization at 180°C**. This process provides a uniform, resistant and durable coating even in difficult climatic conditions.

The planter does not require fixing to the ground, thus facilitating placement and movement based on urban furniture needs. With a weight of **65 kg** and dimensions of **70 x 70 x h72 cm**, it represents the ideal choice for those looking for a quality, robust product with a modern design.

Choose the **H140_546 design planter** to give aesthetic value and functionality to your urban spaces. Order it now or request a quote for multiple supplies.

Technical features:

- **Dimensions:** W 70 x D 70 x H 72 cm
- **Structure:** 3 mm thick galvanized steel with decorative cut-outs
- **Internal container:** In galvanized sheet metal
- **Feet:** 4, to avoid direct contact with the ground
- **Steel parts color:** RAL 7001 (silver gray)
- **Total weight:** 65 kg
- **Fixing:** Not necessary (self-supporting)
- **Delivery:** Supplied in kit with steel screws and assembly instructions

User benefits:

- **Design:** modern with decorative perspective effect.
- **Materials:** resistant and treated against corrosion.
- **Container:** robust and functional internal container.
- **Stable:** safe thanks to the support feet.
- **Easy:** to position, does not require ground fixing.

FAQ:

1. **Is this planter suitable for outdoor environments?**

Yes, it is made of treated galvanized steel and is resistant to atmospheric agents.

2. **Does the product require ground fixing?**

No, it is self-supporting and does not require anchoring.

3. **What is the total weight of the planter?**

The weight is 65 kg, which guarantees its stability.

4. **Is the internal container removable?**

Yes, it is made of galvanized sheet metal and is easily manageable.

5. **What certifications does the product have?**

It complies with ISO 9001:2015, UNI EN ISO 3834-3:2021 and DM 14/01/2008 Transformation Center standards.

Mini buying guide:

Planters for public spaces do not only have an aesthetic function, but also a **practical** one, delimiting areas and improving urban livability.

When choosing, it is important to consider the **resistance of the materials** (treated galvanized steel and wood or sheet metal), the **stability of the structure** and the presence of **internal containers** to simplify maintenance.

Models with **decorative cut-outs** add a touch of design that enhances the environment.

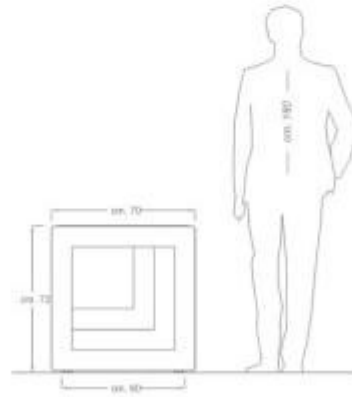

Finally, always check that the product is **certified and anti-corrosion treated**, to ensure a long life even in difficult climatic conditions.
