

Design planter for urban furniture h330_39

Urban design planter in laser-cut sheet metal, with perimeter ornaments in welded tubular and painted internal container. Dimensions: L. 1060 x D. 610 x h. 690 mm. Weight: 71 kg.

The **planter h330_39** is a refined proposal for **contemporary urban furniture**, designed to enhance public spaces such as squares, pedestrian paths, courtyards, and avenues.

The **main structure**, available in different colors, is made of **galvanized and painted steel**, processed with **laser cutting and press-bending**, to ensure **aesthetic precision** and **maximum durability over time**.

The design stands out for the presence of **tubular perimeter ornaments**, welded to the structure and painted in **signal yellow RAL 1003**, which give a distinctive touch and visibility. Upon request, it is possible to choose from different RAL colors for the perimeter elements with a **dedicated quote**.

Inside there is a **galvanized and painted sheet metal container**, practical for maintenance and plant replacement. The **tubular base** is equipped with **4 holes (ø 14 mm)** for fixing to the ground, ensuring **stability in public environments**.

Ideal for urban contexts requiring **functionality, resistance, and a refined aesthetic**.

Furnish your public spaces with the **planter h330_39**, where **design and durability** meet to transform the urban environment.

Technical characteristics:

- **Dimensions:** L. 1060 x D. 610 x h. 690 mm
- **Weight:** 71 kg
- **Structure:** galvanized and painted steel sheet, laser-cut and press-bent
- **Structure available in different colors**
- **Perimeter ornaments:** welded tubular, standard color RAL 1003
- **Internal container:** in galvanized and painted sheet metal, press-bent
- **Base:** tubular with 4 holes of ø 14 mm for ground fixing

User benefits:

- **Distinctive urban design:** combination of modern geometries and chromatic details.
- **Resistant structure:** galvanized and painted steel for prolonged outdoor use.
- **Secure fixing:** base with 4 holes for anchoring to the ground.
- **Practical internal container:** facilitates maintenance and replacement operations.
- **Customizable colors:** possibility to choose different shades for structure and ornaments (different coloring of the ornaments, subject to quote).

FAQ:

1. Is it suitable for permanent installations?

Yes, thanks to the base perforated for fixing and the resistant materials, it is ideal for stable installations.

2. Can I choose a different color for the ornaments?

Yes, it is possible to choose from different colors for the ornaments, subject to quote.

3. What function does the internal container have?

The internal container is integrated into the structure and is designed to hold the soil and plants in a stable way.

4. Does it need regular maintenance?

Only periodic cleaning with neutral products, thanks to the protective finish.

5. In which environments is it recommended?

Perfect for urban contexts, but also for corporate green areas, courtyards, or entrance areas.

Mini buying guide:

The **design planter h330_39** is intended for those who want an element of urban furniture capable of combining **structural functionality and visual aesthetics**. Thanks to the **galvanized structure** and laser processing, it fits perfectly into modern public environments or contemporary architectural projects.

The **base prepared for fixing** and the **internal container** make this planter particularly practical for those managing public or corporate spaces where **resistance, order, and greenery care** are fundamental.

Urban design planter, galvanized painted steel planter, planter with removable internal container, laser-cut planter for public spaces, planter with colored ornaments, RAL 1003 planter ground fixing.
