

Design urban furniture barrier h350_86

Pedestrian barrier for ground mounting h350_86. Dimensions: W 1170 x D 70 x H 1090 mm

The proposed model is an elegant barrier for public spaces. This item is entirely made of steel with space for images or advertising. It must be anchored into the ground, a key feature as it ensures stability, while the material used guarantees durability. This item is oven-painted through a long process that includes natural drying as the final step.

Technical features:

- Height: 109cm
- Width: 117cm
- Depth: 7cm
- Ground mounting model
- Advertising space
- Material: steel
