

Designer outdoor umbrella stand h770_22

Outdoor umbrella stand in AISI 304 stainless steel, 34x35x50cm. Design with accident-prevention edges and rain drainage holes, ideal for public areas.

The **designer outdoor umbrella stand h770_22** represents an advanced technical and aesthetic solution for managing external entrances in professional contexts such as **hotels, restaurants, offices and public spaces**. Entirely made of **AISI 304 satin-finished stainless steel**, the device guarantees extremely high resistance to corrosion and atmospheric agents, maintaining its structural properties over time.

The construction stands out for its attention to safety and durability: the **0.8 mm thick body** integrates double-thickness reinforced side edges and rounded front profiles (20 mm radius) with an **accident-prevention** function. The liquid management system includes a **removable drip tray** in soft elastomer, which dampens impact noise, and specific holes in the body designed for **rainwater drainage**, preventing unhealthy stagnation.

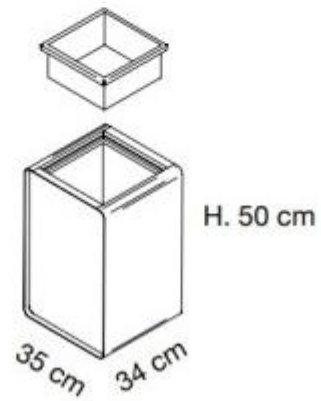

Technical characteristics

- **Material:** AISI 304 satin-finished stainless steel
- **Steel thickness:** 0.8 mm
- **Edges:** Reinforced and rounded for accident prevention, 10 mm lateral protrusion
- **Drip tray:** Removable, in soft sound-absorbing and shockproof elastomer
- **Umbrella ring:** In satin stainless steel with safety lock to prevent accidental extraction
- **Umbrella ring dimensions:** W 240 x D 240 mm
- **Liquid management:** Perforated body for rainwater drainage and internal tray
- **Installation:** Provision for stable floor fixing
- **Total dimensions:** 34 x 35 x h 50 cm
