

Designer umbrella stand h486_03

Professional metal umbrella stand, 19x19x50 cm, stable structure with suspension system for mini umbrellas. 9-slot capacity, Made in Italy.

This umbrella stand stands out for its **innovative design** designed to optimize the organization of entrance spaces in professional, commercial, and hospitality contexts. The structure is engineered to offer high **stability and solidity**, effectively solving the management of umbrellas of different sizes. Thanks to the particular internal configuration, mini umbrellas do not fall to the bottom but remain suspended, avoiding being crushed by longer models and remaining immediately accessible.
