

Desk with laminate top and wire mesh undershelf h848_45

h848_45 desk in ivory laminate, 20 mm thickness, beech edge and Ø 28 mm tubular frame. With wire mesh undershelf, size 3. Dimensions: 70 x 50 x H 59 cm.

The **Desk with laminate top and wire mesh undershelf h848_45** is a single-seater rectangular table designed for the setting up of individual workstations in school and educational environments. This furniture responds to the operational need to combine a stable study surface with organized management of teaching materials, preventing the accumulation of objects on the worktop thanks to the integration of a practical lower compartment. Aimed at schools, educational institutes, and training centers, the desk is identified by school size 3, measures 70 x 50 cm with a height of 59 cm from the floor, and has a net weight of 10.65 kg. The load-bearing structure consists of tubular elements with a diameter of 28 mm, supplied in Light Gray and Metallic finishes. The rectangular worktop is made of Ivory-colored laminate with a thickness of 20 mm and finished with a beech edge, completed by a functional wire mesh undershelf.
