

Dialysis scale chair with handset h634_65

Emodialysis scale chair with anti-tip frame. Maximum capacity: 200 kg. Available in various colors.

The scale chair for clinical treatments is ideal for hospitals, clinics and emergency rooms. The product consists of an anti-tip frame painted with thermosetting epoxy powders with antibacterial properties. The surface is divided into 3 sections: backrest, seat and legs, and features independent and easily removable cushions for the seat/leg section. The upholstery is made of fire-retardant eco-leather and is available in various colors.

The product is characterized by simultaneous and independent movement of the backrest and leg sections via 1 motor, with armrests synchronized with the backrest movement, removable, with rotation function, tiltable up/down, folding at 90°. **A peripheral handset equipped with a 3.5 m coiled cable allows for the management of all movements.**

The weighing system allows the weight to be read via a digital LCD indicator with a 180° viewing angle, easily visible from over 20 m.
