Digital electronic safe with display h7657

Cabinet safe with electromagnetic lock and emergency key. Equipped with LCD display. Ideal for hotel rooms.

The **digital electronic safe h7657** is a practical and intuitive solution designed for security in hotel rooms. This model solves the problem of managing guests' valuables thanks to a **high-reliability electronic device** supported by an **LCD display** that allows all visual and acoustic signals to be clearly viewed during use. The structure, finished with a dark grey powder coating, integrates a double security system: a flexible guest code and a **centralized emergency key** for management, which allows the entire batch of safes to be managed with a single physical mapping. The compact dimensions and anchoring holes make it easily installable in any hospitality context, while ensuring the protection of precious objects thanks to the internal mat on the base.
